

MWS EQUIPMENT ANNOUNCES NEW PARTNER IN NORTH AMERICA

Crisp Industries Inc Join MWS Global Dealer Network

Coalisland, NI – February 23, 2021 – With the recent re-alignment and new brand identity of MWS in January 2021, MWS Equipment is now embarking on its next chapter by appointing a new regional dealer in North America. The latest company to join the MWS family is Crisp Industries located in Bridgeport, Texas.

MWS Equipment is delighted to announce that Crisp Industries Inc. will join the global network of dealers as an exclusive partner covering Texas, Oklahoma, Arkansas & Louisiana. Focused on providing complete project management services, Crisp Industries are the perfect partner to support MWS Equipment's ongoing commitment to the US market.

Crisp Industries have been operating for over 40 years and are an industry leader specializing in design and installation of large-scale processing plants. The company is dedicated to supplying the aggregate industry with high quality equipment and parts.

From their head office in Texas, they operate a 100,000 sq. ft. manufacturing and warehousing facility with fabrication shops, paint facility, controlled environment rubber shop, parts warehouse, and equipment yard. Crisp Industries have a large inventory of equipment, spare parts, and replacement parts.

Ben Frettsome, Product Line Manager, MWS Equipment, commented; “We welcome Crisp Industries to our growing network and are confident a prosperous partnership will develop. We expect 2021 to be a very significant year for MWS in North America.”

He continues, “Crisp Industries are a name associated with specialist capabilities, quality equipment, exceptional customer service and overall, the ability to work with customers to identify issues and develop a solution that improves productivity of the processing plant. This matches our own approach to the design and execution of washing projects, and we are very excited about the opportunities that will present themselves as a result of our new partnership.”

Speaking of the partnership, John Crisp, President and CEO of Crisp Industries Inc said, “We pride ourselves on being at the forefront of the aggregate service industry, we are constantly looking for innovative products to assist our customers in enhancing their productivity and growing their businesses. We are impressed by the offering MWS equipment have and are confident that the addition of this product to our portfolio will enhance what we can offer our customers”.

Pol Donnelly, Technical Sales Manager, MWS Equipment, said, “We are thrilled to have Crisp Industries on board with us. Through this new partnership, we can continue to meet the increasing demand for high performance washing solutions in the construction, mining,

and material processing industry along with building on the reputation we have within the frac sand market. Crisp Industries bring a wealth of experience and credibility to our partner network which complements our approach to providing to customers who seek leading edge products and services to grow their business.”

He continues “MWS Equipment’s strategy is to partner with companies that have the expertise and specialized capabilities in wet processing equipment in order to deliver not just a product but a long-term solution to the customer.”

MWS Equipment and Crisp Industries will work together with their customers to understand their needs to select the product most suited to their business requirements. The support continues once the product is on site and incorporates the full product lifecycle service such as after sales technical service support, spare parts requirements, and product warranty.
